Pole Vault Landing Systems

Pole Vault Landing Systems

All LISCO pole vault and high jump landing systems are manufactured in the USA using 18 oz coated vinyl and two different grades of first quality foam. The back units on all LISCO pole vault landing systems use a super soft foam on top and a denser foam in the bottom layers. The foam in all LISCO landing systems is glued everywhere foam touches foam, not just on the edges. All LISCO landing systems have drain holes placed every two feet in the bottom of each unit for proper drainage when they get wet. The 2" foam in all LISCO landing cushions is double stitched on the corners to eliminate bunching. Tie downs for both the weather cover and common cushion on all LISCO landing systems are affixed every two feet. And all LISCO landing systems come with a five year limited warranty.

LISCO has been a leader in providing athletic equipment to schools for 20 years. And since we manufacture our own products, you have the peace of mind that comes from dealing directly with the manufacturer.

Poly Windscreens

Poly Windscreens

LISCO poly-windscreens are the most durable windscreens you can buy. LISCO LENO poly-windscreens are constructed from a 100% polypropylene lock stitch (LENO) material that is heat set to prevent shrinkage and allow a 15% to 20% air flow through. LISCO closed mesh poly-windscreens are constructed from 100% polypropylene material that is heat set to prevent shrinkage with a 5% to 10% air flow through.

LISCO premium poly-windscreen is fabricated using 2" seatbelt webbing around the perimeter, with an extra line of webbing every 3' throughout the entire length of the windscreen. Size #4 grommets are inset every 18" around the perimeter webbing and every 18" in the center webbing. All LISCO poly-windscreen materials are mildew proof with maximum ultra violet inhibitors to prolong their longevity in sun and high wind areas. Installation and measuring instructions are available upon request.

Backstop & Rail Padding

Backstop and Rail Padding

LISCO backstop padding is currently in use at thousands of ball fields. All LISCO backstop padding is fabricated with 18 oz coated vinyl and high-density foam. For solid walls, LISCO recommends using a hard wood backing with metal railing to secure boards or industrial strength hook & loop on all vinyl and foam padding. For chain link fences, LISCO recommends all vinyl and foam padding with 1" lip on top and bottom that has grommets every 12" to secure to the fence. For rail padding, LISCO offers circular padding or flat padding to wrap around rails. Rail padding is secured with grommets or hook & loop. Most school colors are available. Custom artwork is also available.

Backstop Padding:

Product Number:

2 7/16" Wood Back	LISCOBSP2716WB

Backstop Nets & Cages

Custom Backstop Nets

LISCO offers a wide variety of custom backstop netting to fit your performance and budget specifications. LISCO offers both woven and knotted nets and will recommend the best fit for your project.

LISCO recommends that you measure your backstop when the wire rope on the backstop is installed before ordering your nets. LISCO is available to help you with these measurements to ensure your backstop netting does not sag or hang loose.

Backstop Nets:

Product Number:

#42 Woven Nylon: 1 1/2" Square Mesh	LISCO42WNN
#600 Woven Nylon: 1 1/2" Square Mesh	LISCO600WNN
#420 Woven Nylon: 1 1/2" Square Mesh	LISCO420WNN

14' x 12' x 70'	LISCOKBC141270

Field Covers

Infield, Base & Mound Covers

LISCO infield covers are made from a light weight polyethylene material. The material comes in a 9 mil thickness that weighs 5.3 oz per square yard and 12 mil thickness that weighs 6.3 oz per square yard. All our infield covers include UV sandbags, roller cover and shipping crate.

LISCO base and mound covers are available in both lightweight polyethylene and heavier 18 oz coated vinyl. All LISCO base and mound covers include 2" webbing, double stitched around perimeter with brass grommets for securing to the field. Sandbags are available for synthetic surfaces. Custom artwork is available on vinyl only.

Safety Wall Padding

Safety Wall Padding - custom art available

LISCO safety padding for solid walls is manufactured using 2" high density polyurethane foam mounted on 7/16" wood backing and covered with 18 oz vinyl coated polyester. The pads will vary in size according to the measurements of your facility. Most orders are for 6' x 2' x 2 7/16" pads placed side by side on each end of a basketball court. Boards are mounted directly to the wall using "Z" railing (hidden), "L" channel railing, industrial hook and loop or mounting screws. Most school colors are available.

All LISCO safety padding is available with custom artwork. LISCO custom artwork is available in 1, 2, 3 and 4 colors. LISCO custom artwork on padding varies in size according to the application.

Safety Wall Padding:	Product Number:	Artwork on Padding:	Product Number:

Flooring & Basketball Racks

Gym & Weight Room Floor Covers

LISCO gym floor covering comes in two different materials to fit your performance and budget needs. LISCO vinyl covering is made from sheets of 18 oz vinyl coated polyester. LISCO poly-coated floor covering is made from a light weight 10 mil poly-coated material that is durable and easy to handle. Vinyl floor covering comes in most school colors. Poly-coated material is black on one side and silver on the other.

LISCO rubber mats have cushioning features that protect free weight area floors from dings, scuffs and other damage. Available in both 1/2" and 3/4" thickness, LISCO weight room flooring is a solid, durable mat that is easy to install.

Football & Off Season

Goal Post Pads

All LISCO goal post pads are manufactured using 5" high density polyurethane foam to surround your pole and covered by 18 oz coated vinyl. A 2" x 6' hook & loop fastening system runs the length of the padding. All LISCO goal post pads are custom ordered based on the diameter of your goal post. To get the diameter, measure the circumference and divide by 3.14.

6' Goal Post Pads:

Product Number:

6" Pole	LISCOGPPAD6
7" Pole	LISCOGPPAD7
8" Pole	LISCOGPPAD8
9" Pole	LISCOGPPAD9

Blocking Dummies

All LISCO blocking dummies are manufactured using 18 oz coated vinyl and high density polyurethane foam. Removable double layer bottoms make it easy to replace worn out bottom sections as needed. Handles are double reinforced. Available in either square or round bodies.

Blocking Dummies:

Product Number:

14" x 14" x 52" Round	LISCOBD141452R
